EDITOR'S INTRODUCTION

Hudson Music is proud to present Steve Gadd's *Gaddiments*. This project, a set of related exercises based on the rudiments, can be practiced by drummers in all fields (drum set, drum corps, classical). It was conceived by Steve while quarantined at home during the pandemic. Trying to keep his hands in shape, he began practicing and eventually inventing new patterns. As these patterns evolved, he was excited to share them and began writing them down.

The result is this book.

It has long been known that Steve played in drum corps when he was young and that he often incorporates rudiments in his playing. In *Gaddiments*, he uses the rudiments in combination with three musical concepts:

1. **Displacement.** Each of the exercises is based on a rudiment or on Steve's variations of it. He takes the rudiment and displaces it by starting on different subdivisions of the beat. This creates new patterns without changing the sticking.
2. **Phrasing.** All of the exercises are written in patterns that reinforce the understanding of phrases.
3. **Keeping time.** Try to always be aware of the tempo while practicing.

IMPORTANT

1. Practice these exercises with a click. The bpm tempos are written at the top of each page.
2. Play the material in order. The stickings get more complex as the book goes on.
3. The music and layout have been purposely designed by Steve to make it easy to read. Pay attention to the repeat and D.S. signs.
4. Rudiments have evolved and some have acquired more than one title. Steve refers to them by the names he learned in drum corps.
 - a. Swiss Flamadiddle = Single Flammed Mill
 - b. Fladiflafla = Pataflafla
 - c. Swiss Flam Accents = Swiss Triplets

As one of the most celebrated drummers in history, Steve has read thousands of charts and appreciates the craft and clarity of hand-written music. Therefore, at his request, we had this book hand engraved. He specified each page layout and the order of the exercises to reflect the development of the concepts. Some fold-out pages have been added to keep things clear and in order.

Refer to the accompanying videos to understand the flow and phrasing of the examples.

On behalf of Steve and Hudson Music, enjoy this classic collection of drum music!

-Joe Bergamini, Senior Editor, Hudson Music

THANK-YOUS

Special Thanks

These ideas came through me during the Covid lockdown,
I hope you enjoy them.

I'd like to thank Rob Wallis, Joe Bergamini, my "test pilot" Dom Moio, Rick Gratton,
Roy Williams, Mike Hoff, Bill Zules, Jonathan Mover and Alfonse Giordano.

Love

A handwritten signature in cursive script that reads "Steve".

NOTES

Handwriting practice lines consisting of ten sets of four horizontal lines each, spanning the width of the page.

In this, the first drum book he has written, music legend Steve Gadd presents a series of rudimental passages inspired by his time in drum corps and love of the rudiments. Each exercise is based on a classic or contemporary rudiment. It's then displaced by starting on different subdivisions of the beat. This creates new rhythms without changing the sticking. All of the solos are written in a way that reinforce the understanding and importance of phrasing.

The book has been painstakingly hand-engraved at Steve's request, to bring a comfortable and classic look to the pages. The layout and detail of each page was designed by Gadd specifically to make it clear and easy to read. These features are reflective of a man who has read thousands of charts and played on some of the most important recordings of our time.

Accompanying the book is a full set of videos with Steve demonstrating each exercise.

Drum set, drum corps, classical drummers and drum teachers will be inspired. This book will improve your technique, phrasing, groove, and rhythmic vocabulary.

Welcome to *Gaddiments*...

"What an eye-opening, educational, challenging and fun treatment of standard and contemporary rudiments. *Gaddiments* is a masterpiece and must be included in every drummer's library as well as by every high school or college band, drum corps, indoor drumline or individual hobbyist."

Dennis DeLucia (DCI, WGI and PAS Halls of Fame)

"Steve Gadd's *Gaddiments* is an instant classic from my perspective. Steve has written well-conceived and useful sticking combinations that are challenging, sound good and feel great to play. The examples have symmetry, motivic development, a logical flow and a natural feel. The notation is easy to read, and the "big band chart" look is hip. The examples are applicable in many different ways. These are excellent etudes for developing symmetry on the kit. Thank you, Steve."

Steve Smith (Journey, Vital Information)
