Now, let's combine the hands.

Remember: With multiple bounce strokes:

1. Don't crush the bounce.
2. Be sensitive to feeling 3 or more bounces per note.
3. Keep the bounces as alive as possible.

THE PIANISSIMO ROLL

One of the most challenging things for many percussionists is the long pianissimo roll. At extremely low dynamic levels, it's easy for tension to creep into the hands and wrists and turn a nice day into something else. We all deal with it in different ways but after many years of analyzing this problem, I came to some conclusions which helped me and many of my students.

First, you want to greatly reduce the speed of your roll. If you give each multiple bounce stroke as much length as possible, you can move your hands almost in slow motion and still maintain a smooth, sustained-sounding roll. Moving your hands at a slow rate of speed will also help reduce the build up of tension in your hands and wrists. When moving at this extremely slow rate of speed, really stretch out the length of each multiple bounce.

Try this:

$\text{♩} = 52$

pp

R L R L R L R L R L R L R L
(or) L R L R L R L R L R L R L R

It may take a bit of getting used to, but the idea is to calm things down as much as possible and to help you to relax while the roll is going on. A listener will hear only a smooth roll or something not so smooth. They'll have no concept of how fast or slow you are moving your hands. Don't hold your breath. Breathe slowly and deeply.

Second point: Take that same slow, comfortable series of multiple bounces, divide them into groups of three, five or seven and give a very gentle pulse to the first set of bounces of each group.

21. $\text{♩} = 60-138$

The musical score for exercise 21 is written on a single staff with a key signature of one sharp (F#) and a time signature of 3/4. The tempo marking is ♩ = 60-138. The piece begins with a forte (*f*) dynamic and features several triplet markings over groups of three eighth notes. The dynamics shift from *f* to piano (*p*) and back to *f*. Below the staff, rhythmic patterns are indicated by letters R and L, representing right and left hand movements respectively.

Rhythmic notation below the staff:

f RLRL | RLRL | RLRL | *f* RLRL | RLRL | RLRL | *p* RLRL | RLRL | RLRL | *f* RLRL | RLRL | RLRL | RLRL | RLRL | RLRL | RLRL | RLRL | RLRL | RLRL

Four Stroke Ruffs

The most important thing to remember about a four-stroke ruff is:

It's an embellishment, not a rhythm.

The three grace notes are decorative, giving length and a bit of additional weight to a single, main note. That main note may be in the midst of a complex rhythmic line, but the delivery of the grace notes themselves cannot interfere with the shape and flow of that line. They should *enhance* the rhythm without *becoming* the rhythm.

The Russian and French orchestral literature is loaded with four stroke ruffs; the former using them mainly as an embellishment of the rhythmic character of the work, while the later employs them more often as a coloristic effect.

The *clarity* and rhythmic *precision* of the ruff will be our main concern in these exercises. If the tempo is fast, and you "open up" the grace notes of the ruff, you're very likely going to be late with the final, main note. If that happens, it won't matter what you were trying to express musically. It will simply be late.

To avoid that, you want to "close up" and "lighten up" the grace notes, keeping them as close to the drumhead as possible. The delivery of a ruff is very much like a flam — you want to make the first grace note as light as possible. When you throw a four-stroke ruff, you want the grace notes and main note to be delivered in one motion, not four. You should feel an inner energy or slight crescendo push through the grace notes into that main note.

The following example shows what the hand playing the main note is actually doing during a four-stroke ruff (we're assuming a sticking of lrlR or rlrL.) After dropping the first note you're going to give the stick a little more velocity to get the accented second note, which in a "real" four stroke ruff, would be the "main" note. The hand not playing the main note does exactly the same thing, but *without* the accent.

Try this:

$\text{♩} = 72$

$\frac{4}{4}$

p

R R	R R	R R	R R
L L	L L	L L	L L
R R	L L	R R	L L
L L	R R	L L	R R

Try dropping those two middle grace notes in with the right. I always found that particular sticking to be comfortable for me, but you might have another one that works better for you. The bottom line is this: you want to do everything you can to make it consistent, while at the same time making it as easy and comfortable as possible.

Work with all of these stickings in the four-stroke ruff section of the book.

[illegible]

Musical notation for Exercise No. 60, featuring eighth notes, triplets, and dynamic markings *pp* and *mp*. The exercise consists of two staves.

R ①
mf R L R L f mf f mf f R L ~ R L R ~ L R L ~ R L R L

Musical notation for the second staff of the exercise. It continues with eighth and sixteenth notes, including fingerings (1, 2, 3, 4, 5) and a dynamic marking change from *mf* to *f*. The notation includes a triplet of eighth notes at the end.

R L R L R L R L R L R L R L R L R L R L

Handwritten musical notation for the right hand of 'The Rose Tree'. The melody is written on a single staff with a treble clef. It features various musical notations including eighth and sixteenth notes, rests, and dynamic markings such as *p*, *f*, *sfz*, *mp*, *ff*, *mf*, and *sfz*. The notation is written in ink on aged paper.
